The model Sonic is an ultra light clog in EVA, that is used in many aspects of the healthcare industry. The ultralight material makes you forget you are wearing shoes.

This model is chemical or UV sterilizable and is machine washable at 40°C.

The slip resistant outsole provides a good grip both on wet and dry surfaces. The closed top is to protect the foot, but lateral vents take care of the needed ventilation.

# Sonic

CE standard  
CE EN 20347 certified.

Washable at 40° C/ 104°F

Chemical and UV  
sterilizable

Not suitable for autoclave  
Attention: this model can not be  
sterilized in an autoclave.

Shock absorbing

The gel compartment in the heel  
makes it very shock absorbing.

Ethylene vinyl acetate (EVA)

The shoe is made of EVA, this material is water proof,  
antibacterial and antifungal. It is very light, flexible  
and deformation resistant.

Ultra light

The average weight of the shoe is 3.92  
ounces or 155 grams.

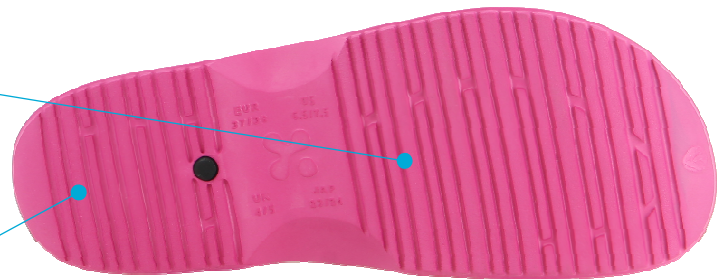

Anti-static ESD

The shoe has a plug that provides  
dissipation of static electricity to be  
conform with the ESD standard.

Slip resistant SRC

The rubber outsole provides  
excellent grip, both on wet and dry  
floors and complies with the SRC  
standard.
